

# Decarbonization Strategy & Action Accelerator

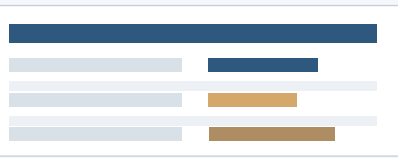

Honda has invited your organization into a structured program, delivered by Trio, to support the development of a **decarbonization strategy** and **near-term action plan** your team can review, plan for, and implement.

## Key Program Outcomes

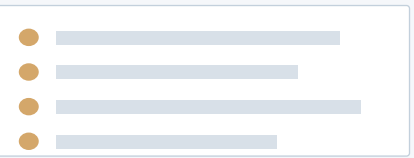

### Decarbonization Strategy

Identification of best-fit emissions reduction initiatives and a decarbonization strategy to maximize impact.

### Cost & ROI Summary

High-level capital investment, operating impact and likely return for identified actions.

### Actionable Project List

Defined list of near-term projects which support the achievement of decarbonization strategy.

## Leadership Ask

At the close of the program, the project lead will present the completed strategy and ask leadership to:

- **Evaluate for approval** the developed decarbonization strategy
- **Consider** the near-term project list and the investment it requires

## Program Engagement & Effort

**2 – 4**

hours per month

with one or two busier months mid-program

### Project Lead

Sessions, homework, and data collection

Relative effort

### Project Team & Subject Matter Experts

Supply site, energy, and other data

### Executive Sponsor

Align early, then review, and evaluate for approval

## From ambition to an approved plan.

**Ask** your project lead to share the module #1 presentation for more details on the program and **align** early on the criteria you will use to evaluate the strategy for approval.
